Brightest SMD MR11 150 Lumen White LED Light Bulb 12 V

[Click to Enlarge](#)

We are proud to introduce our all new super bright LED replacement bulb for any standard MR11 application. This bulb works with a 1.8 watt LED to give you 45 degree spot illumination that is comparable to a 10-15 watt incandescent bulb. By replacing your standard incandescent MR11 bulbs with LEDs you will reduce greenhouse gases by consuming less energy. As a result your energy costs will go down significantly as well. This SMD MR11 costs less than \$.5 per year to operate. (cost to operate taken based on national KWH costs, and an estimated 8 hour per day usage) The SMD LED will fit into any standard MR16 application, and has an estimated LED life of 40,000 hours and 1 year Warranty.
